Just a chase between the Inspector and the naughty girls, the boy is enough for Kiloo Games to bring us a great game. Needless to say much about this game. Subway Surfers can be considered one of the best “endless running game” in mobile gaming history. An easy way to talk about this game is when it has a gameplay style similar to Temple Run 2, but impressive graphics and a host of special features make your experience more enjoyable in a variety of ways. A chase on the rails Unlike other endless-run games, Subway Surfers has an interesting storyline. One day, Jake – a naughty boy graffiti painted on the train car. However, he is unlucky. The ferocious Inspector discovered him and chased him with a baton in his hand. The inspector was not friendly, determined to catch him to teach him a lesson. Since then the chase has started... Rule The gameplay of Subway Surfers is not complicated. You have to run nonstop along the railroad tracks, constantly moving forward, skillfully avoiding obstacles on the rails and oncoming trains. You can control Jake to jump (swipe up), roll (swipe down) and turn left or right (swipe left or right). The first time, you will think that this game has no depth, only a repetitive play. However, you will have to think again after playing this game. After playing once, you will definitely want to play next time so that you do not make the same mistakes. Soon, you will fall in “love” with Subway Surfers. Increasingly, the game will speed up causing you to have more difficulty controlling the character. Your reflexes and finesse will help you win this game. Once you reach the record score, the system will save and you can compete on the chart with your friends. Tell them who is the best in Subway Surfer! Support items During the game, many support items will appear. They are: Jetpack: Help Jake temporarily fly up and collect coins in the sky for a period of time. You will not encounter any obstacles during this time.Coin Magnet: Magnets help you suck the coins around without directly picking it up.Sneakers: Run faster and jump higher. However, you must be careful because the jump is too easy to collide with other obstacles.Multiplier: Gain more points.Hoverboard: Thing that helps you move smoother. In particular, during your use, your character will be protected from fall, obstacle collisions for 30 seconds. Take advantage of this feature to have a better chance of surviving. You can use coins to upgrade the effect of the items. Also, do not forget to collect mysterious chests to get the key or a large number of coins. Many funny characters Your main goal when playing Subway Surfers is to collect as many coins as possible to unlock the characters. The first character to accompany you is Jake. You can immediately unlock Dino dinosaurs free of charge after logging in to your Facebook account, and you will also receive additional coins and keys. Some of the characters you can not unlock with coins, you have to open mysterious chests, then pick up special items in a lucky way. For example, to unlock Fresh, you have to spend 50 radio. Trust me! After unlocking the fun girls and boys, you will feel very happy. Travel to major cities around the world Subway Surfers is carefully curated in terms of graphics. The design of the game is based on a very beautiful 3D platform, real. Bright, colorful background gives endless inspiration to the players. In particular, after an update, the entire game from the character, hoverboard, and landscape is changed to a festival in a city around the world. You will be introduced to the culture of many different countries, traveling on your phone. The colors in the game are even more vivid when you unlock paint spray rockets, hover over rails and leave behind a rainbow of colors with the dominant colors. Easy enough for newcomers, but hard enough to challenge experienced gamers. This game is no shortage of challenges, whether you play alone or take part in weekly challenges. To make the game less difficult, you may need our MOD version. MOD features Unlimited Money: The two main currencies in the game, Gold Coins and Keys, are provided unlimited as soon as you open the game. Buy what you need for your journey. Unlocked All Characters: Play any character you like. Undeniably Subway Surfers is one of the “endless run” games that have reached record numbers of players around the world. That is enough to say the appeal of this game. You can download the game via the links below the article. Remember, never stumble! Subway Surfers (MOD, Unlimited Coins/Keys) - the legendary and most popular runner on mobile. The protagonist of the game, Jake, painted graffiti on subway cars with a spray can, but a policeman noticed him, to avoid punishment, your only option is to flee along the railroad, for this use cool skateboards and different amplifiers. Run along trains and dodge them using swipes. Improve your hero's speed and jumps in Subway Surfers mod apk, and customize with new clothes and equipment. Updated to version 3.1.1!
